Como pedir auxílio financeiro no Coursera

GFC

0. Introdução

Ter certificados do Coursera agrega muito ao currículo, e é extremamente fácil de conseguir o auxílio financeiro total. Siga esse tutorial e espere 15 dias que é sucesso.

Obs: Esse tutorial foi feito no site em inglês do Coursera, mas serve para a versão PT-BR também, inclusive o texto que usamos pode ser o mesmo, sem tradução.

1. Escolha seu curso

2. Clique em *financial aid available*

3. Continue com a inscrição

Applications take at least 15 days to get reviewed

Continue to the application for the course: Crash Course on Python

Or enroll and start learning today

4. Aceite os termos

Financial Aid

We're proud to offer a financial aid program that helps people access the skills they want to learn. Our program was created to help those who can't afford to pay for a course on their own.

We ask that every applicant:

- ☑ Shares accurate information on their application
- ☑ Commits to finishing their Coursera courses

Please type the following sentence.

I agree to the terms above

I agree to the terms above

Continue

5. Preencha seus dados

Coloque valores parecidos com os da imagem, irão dar o curso de graça de qualquer forma.

Background Information

Educational Background (required)

College degree ▼

Annual Income (required)

1000

Employment Status (required)

Student ▼

How much can you afford to pay? (required)

10 | per month ▼

6. Preencha os textos

Parece ser a parte mais trabalhosa do tutorial, mas é bem tranquilo. Você pode copiar os textos do próximo slide ou escrever qualquer coisa, que eles aceitarão.

Reza a lenda que um dos membros do GFC repetiu 'I don't have money' até dar 150 palavras e conseguiu o auxílio.

Why are you applying for Financial Aid? (150 words minimum required)

How will taking this course help you achieve your career goals? (150 words minimum required)

Why are you applying for Financial Aid?

I am from Brazil, and here we are going through a economical, political and sanitary crisis, so the situation in my country is very chaotic. I am an undergrad physics student with goals to work with data science, so this course is very important for my formation.

I have done a lot of coursera courses when my college had an accord with the company, and I fell in love with the whole idea of MOOCS. I would like to continue my education with the help of those courses, so I need this Financial Aid. I had three semesters of computational methods of physics but neither of them was focused in data science, the area that I admire the most.This program is exactly what I hope to learn, data science with python, the language that I think will help me in my career. So I dont have how to pay for this course, but I really think that this course will be essential to my education.

How will taking this course help you achieve your career goals?

[Área do Curso, ex: **Data Science**] is the future, and even for a relatively new area, job openings in the job market already ask for a certain experience with specific tools, which, due to studying physics in college, I didn't have much contact- I had 3 semesters with courses in computational methods, but focused on solving physical problems with a physical approach, as you would expect from a Physics course.

This course, being part of the integrated courses program that I want to complete (**Applied Data Science with Python Specialization**), will help me to have more direct contact with the area, introducing me to this area, also providing a greater facility when it comes to finding a job and even participate in some research in college, since they already ask for a previous experience in the area that, unfortunately, I don't have yet. Again I repeat, I do not order the course at zero cost because I want to demonstrate my commitment to finish it and I just do not pay the full amount because I have no conditions.

7. Preencha o ultimo bloco

Novamente, qualquer coisa é válida aqui, e não tem um mínimo de palavras requerido.

Help Us Improve

We're always looking for opportunities to improve our financial aid program for learners like you and we'd love your feedback. This information will not affect your ability to receive financial aid.

Would you consider using a low-interest loan to pay for your courses?

○ Yes   ● No

If you answered no, please help us understand why.

I don't have money

8. Finalize o pedido
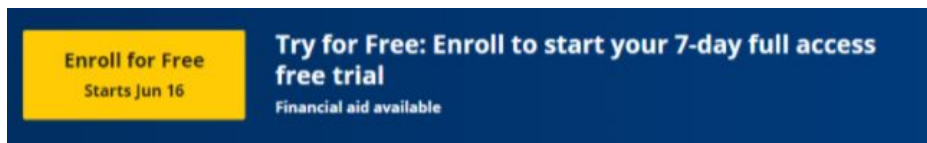

We've received your financial aid application.

We've received your financial aid application for Crash Course on Python. We'll let you know the outcome of your application on **Jul 2, 2021**. If you choose to start a free trial, your pending financial aid applications will be canceled. If you'd like to re-apply for financial aid after starting a free trial, you'll need to cancel your subscription first.

Learn more about the financial aid program, or how to get started in the course to get ahead.

9. Após o pedido

No coursera existem basicamente 2 tipos de cursos pagos, um com sete dias de free-trial, e outro que é totalmente acessível, a parte paga é apenas o certificado e provas.
